

MS-Albedo kit MS components

Technical Specifications

Universal Albedo kit

2 positions

Mounting rod

Rod mounting clamps

Albedo glare screen

MS-Albedo kit for 2 pyranometers for albedo measurements or reflected irradiance for Bi-facial PV applications. The mounting plate can be used with any of the MS-series pyranometers or smart pyranometers. The robust Aluminium and Stainless steel parts provide a reliable solution which can be assembled on-site. The albedo kit contains a mounting plate, 700mm rod, albedo glare screen and mounting accessories. The albedo glare screen is recommended to be used for GHI albedo applications to limit the field of view and avoid dome reflections at low solar elevation angles.

	MS-Albedo kit MS
Albedo mounting kit	2 positions
Pyranometer (GHI)	MS-Series
Dimensions mm	Plate ø95 mm / ø 15mm Rod L=700mm
